

Excellence in motion.

The Industry's Foremost Specialists in
Rotating and Reciprocating Equipment Services

**UNIVERSAL
PLANT
SERVICES®**

Excellence in motion.

We specialize in repairing, modifying, and installing rotating equipment, utilizing our extensive expertise in specialized equipment.

CAPABILITIES

Our life's work is the life of your equipment

At Universal Plant Services, we bring complete expertise to the world of motion. Our commitment to excellence and comprehensive knowledge of rotating equipment makes us an indispensable partner for industries where every revolution and rotation counts.

Our services encompass all necessary shop and field operations to address customers' compression and engine requirements, regardless of the equipment's manufacturer. In addition, we boast one of the nation's largest collections of field machining equipment and offer comprehensive bolting services. To ensure you have what you need when you need it, we ensure swift delivery and cost-effective, top-tier repairs, along with sales of new and reconditioned valves and parts at 14 facilities across the U.S.

COMPREHENSIVE SERVICES THAT ADDRESS THE FULL LIFE CYCLE

We perform specialized services on an array of mission-critical rotating and reciprocating equipment anywhere in the U.S.

Mission Critical Reliability

We leverage our vast experience, superior in-field execution, industry-leading safety record, and technical prowess to deliver excellence on every project.

Our dedication to quality work and safe performance is industry-known and woven into the culture of our company. Our top-down commitment to leadership training is redefining the industry's perception and expectation, developing true industry leaders. We invest our unparalleled industry knowledge, advanced technology, and problem-solving expertise into solutions that deliver performance above all others.

Our commitment to quality surpasses industry benchmarks and aligns with manufacturer specifications, scope of work contracts, and other specific requirements. We guarantee the excellence of our work to ensure it complies with project specifications and exceeds customer expectations.

QUALITY-DRIVEN PEOPLE, SYSTEMS, AND TECHNOLOGY

- › AWS- and API-Certified Inspectors
- › ASME- and NBIC-Certified Quality Programs "U", "R", "S", "VR", and "T/O"
- › 3D Scanning and Laser Metrology
- › Engineering and Construction Support Team
- › Precision Verification Systems
- › Industry-Leading Connection Management System
- › State-of-the-Art Precision Alignment Technology

DELIVERY METHODS

The Driving Force Behind the Wheels of Industry

We understand the critical role that rotating and reciprocating equipment plays in the heart of critical industries and ensure they run seamlessly and efficiently.

TURNAROUNDS AND OUTAGES

ONGOING MAINTENANCE AND REPAIR
