

CAPABILITIES

Field Machining & Technical Bolting

Universal Plant Services has one of the largest inventories of field machining equipment in the U.S., along with a skilled team of certified field machinists who provide specialized services like milling and drilling, pipe cutting, and turbine split line machining.

Our skilled professionals also perform bolt torquing, tensioning and flange management to ensure that bolted connections are tightened to the correct specifications, effectively lowering the risk of bolt fatigue and lessening the risk of connection failures, leaks, and unexpected shutdowns. From custom-built machinery to on-site machining of boiler feed pumps, split cases, compressors, and turbines, our certified field machinists and welders deliver exceptional results for our customers.

EQUIPMENT SERVICED

- Boiler feed water pumps
- Turbines
- Exchangers
